# The idea

MyUniLife is a web platform (with its mobile app) that will help the academic people in their university life (f.e. to find an accommodation, to pass an exam, participate in events).

The platform is built to help students navigate through university life, have productive learning experiences and an entertaining university environment.

Problem

Qualcuno sa darmi informazioni sull'esame di Microeconomia con il prof Senatore? Ci sono domande ricorrenti? Avete delle prove d'esame passate?
Grazie mille

Solution

• Support for the student during their stay abroad (Erasmus, Internship) through reviews, pictures and advice even with an evaluation system about the different international places of the stay;
• Information and evaluation about the different faculties of the university;
• Publication and consultation of housing announcements that meets the needs of the students through a review system of previous users;
• Offer of educational material and notes useful for passing exams.
